Idées et futur de geOrchestra

Discussions ouvertes sur comment gérer les priorités fonctionnalités/outils/releases.

Pourquoi cette présentation ?

geOrchestra 25 \Rightarrow geOrchestra 26

Quelques idées

Crowdfunding, Participation communauté, Dev experience

Crowdfunding	Participation communauté	Dev experience
<p>Créer des crowdfunding visibles publiquement sur Github & georchestra.org</p> <p>Permettrait de financer de grosses évolutions communes.</p> <p>Permettrait de définir des jalons & évolutions en amont pour les versions majeures.</p>	<p>Impliquer la communauté sur les questions de sécurité et les montées de versions de librairies par exemple.</p> <p>Avoir un outil, avec un système de vote des fonctionnalités futures.</p> <p>Financement ?</p> <p>Comment impliquer la communauté encore plus ?</p>	<p>Améliorer l'expérience développeur dans les projets.</p> <p>Une partie déjà en cours avec la réorganisation du code source.</p> <p>Documenter encore.</p>

Outil de vote

Fider, Astuto, LogChimp ...

 **Feedback for Fider**

Fider is an open platform to collect and prioritize customer feedback. Visit fider.io to learn more.

We're on a mission to build the best open source feedback platform, but we know this is not possible without your help. We need your feedback on how to improve it!

How can we make Fider better for you?

99

Restrict how many ideas an user can vote

23

Some users might vote on EVERY single idea, which gives little benefit for administrators. If they had a limited number of votes, they'd have to choose wisely what they really want to see implemented.

under discussion

86

Vote / Like comments, like StackOverflow and Twitter

3

So peoples can show they agree about a comment.

61

Allow visitors to post without having to sign in

24

This would help the forums to get more contribution, but we'll need to think about using an anti-spam system.

Guilherme Oenning

We're planning to have this feature in a near future release. Please come along and share your thoughts on how would you like to see implemented!

53

Make it possible for admins to approve ideas before they get public

4

Some users may spam with unrelated ideas. An option for an admin to approve all ideas before they get public could help this.

49

Allow users to mention/tag other users

4

Sometimes, users wish to be able to tag other users in a conversation as a means of replying or referring to someone else's comment. It would be nice if users could do so, perhaps by typing @ and then showing an auto-complete list of users to "tag". This would go well with the threade...
